

# HOLLYBUSH PARK

## Seasonal Pitches.

2010 = £1350

**The fee is based on 2 named people for 12 months, for holiday use.**

### **Electric Hook Up Points:**

Strictly one hook up per caravan. Please do not leave caravans plugged into hook up points when you they are not occupied. If an additional hook up is required for any reason please discuss this with us first. Additional hook ups are £2 per night.

### **Awnings:**

Please ensure that awning guy ropes do not encroach on to the grass area outside of your hard standing.

### **Hard Standings:**

We would be grateful if BBQ's etc could remain on your own hard standing and not on the grass area. (For safety reasons and it makes it difficult to cut the grass!)

### **Guests:**

Any overnight guests are to be paid for as per the current tariff of £2.00 per night per person. Please advise us of any visitors prior to their arrival so that we know who is on the park.

### **Insurance:**

Caravans must be covered by adequate insurance at all times.

### **Water:**

Due to high water charges we respectfully request that hosepipes are not used to wash Cars on site. We understand that hosepipes are necessary to wash caravans and keep them in good condition. The use of a pressure washer will attract an additional charge of £5 each time.
